

# List of Tables, Figures and Boxes

Note: The source of all tables and figures not citing a specific source is the authors themselves.

## Tables

Table 1.1: Important derivatives exchanges	6
Table 1.2: Contract specifications for NSE's S&P 500 index futures contract	8
Table 3.1: Short hedger vs. long hedger	50
Table 4.1: Production and storage characteristics of various assets	60
Table 4.2: Futures vs. spot price relationship	63
Table 4.3: Hedging returns for long and short hedgers	68
Table 5.1: Deliverable basket and conversion factor for September 2012 contract	92
Table 8.1: Illustration of a swap	137
Table 8.2: Net cash flows	138
Table 8.3: Cash flows	142
Table 10.1: Major options exchanges	155
Table 10.2: Comparison between futures/forwards and options as hedging instruments	164
Table 10.3: Options vs. futures: Gains and losses in different circumstances	166
Table 10.4: NIFTY option as on 12 August 2016	168
Table 10.5: Microsoft (MSFT) option chain, August 2016 expiry	169
Table 10.6: Microsoft (MSFT) option chain, September 2016 expiry	170
Table 10.7: Index options with same strike and varying expiry	170
Table 11.1: Option price sensitivities	193

## LIST OF TABLES, FIGURES AND BOXES

Table 12.1: Pay off from long call	195
Table 12.2: Pay off table: Protective long put	197
Table 12.3: Selling covered calls	200
Table 12.4: Cash-covered short put	202
Table 13.1: Pay-off table for zero cost collar at expiry	205
Table 13.2: Microsoft option prices	208
Table 13.3: Comparison between covered (short) call and bull call spread	210
Table 13.4: Pay-offs on each leg of box spread sold	218
Table 16.1 ETFs traded in India	242
Table 16.2: Leading American-listed and traded ETFs	246
Table 17.1: Standards applicable to derivatives accounting	260

## **Figures**

Figure 3.1: Forward	38
Figure 3.2: Futures	38
Figures 3.3: Hard red winter wheat futures' seasonality	40
Figure 4.1: Carrying costs of a commodity at different storage levels	56
Figure 4.2: Futures price at a backwardation	66
Figure 4.3: Futures price at a contango	66
Figure 4.4: Backwardation turning to contango	67
Figures 11.1: Pay off diagrams for PCP	183
Figure 11.2: Implied volatilities in a 'smile' pattern	191
Figure 11.3: Implied volatility showing a skew	191
Figure 12.1: Net gain on SBI call option at or after July expiry	195
Figure 12.2: Net gain on SBI call option before July expiry	196
Figure 12.3: Gain on SBI put option at or after July expiry	198

## LIST OF TABLES, FIGURES AND BOXES

Figure 12.4: Net gain on SBI put option before July expiry	198
Figure 12.5: Pay off for a 'covered call' at expiry (long underlying plus short call option)	200
Figure 12.6: Pay off for a 'covered call' before expiry	201
Figure 13.1: Zero cost collar pay off on expiry (curve represents market value before expiry)	206
Figure 13.2: Bull spread	216
Figure 13.3: Bear spread	216
Figure 13.4: 'Box spread' pay off on expiry	217
Figure 13.5: Smile pattern (symmetrical) and Skew or Smirk pattern (asymmetrical)	222
Figure 17.1: Tax treatment of derivative transactions	276
Figure 18.1: Transaction without clearing house	289
Figure 18.2: Transaction with clearing house	289
Figure 20.1: Lehman Brothers Share Price 2004–08	301

### **Boxes**

Box 1.1: Thales' call options on olives	11
Box 3.1: The National Spot Exchange Limited case	48
Box 13.1: Using options to avoid contracts and taxes?	206
